

REGULAR AVON TOWNSHIP BOARD MEETING - Wednesday February 11, 1976

US EPA RECORDS CENTER REGION 5

468104

-----

Supervisor Borden reported to the Board he had received a phone call on Tuesday, February 10 from a Representative of the Senate Fiscal Agency advising there will be a Joint Committee Meeting tomorrow morning, Thursday, February 12 at 8:15 a.m. in Lansing at which time, for the first time, we will be able to see a copy of the Hydrogeological Report on the testing done in the School Road - Parke Street - Hamlin Roads area relating to Stan's Trucking. This is the study that has apparently been funded by the State to determine the nature and extent of the underground contamination. During ensuing discussion, Supervisor Borden advised he would be attending the Committee Meeting and will report further to the Board.
